SPROUTING GARDEN

Making a space where trees, beans and humans can use and live together

Respecting the land

Public space function

Taking the tree's lives seriously

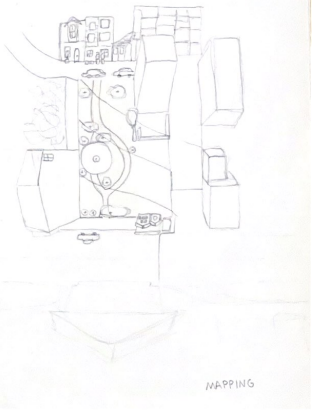

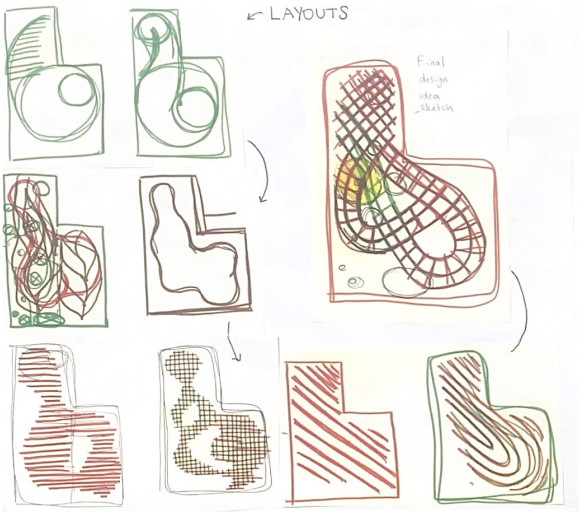

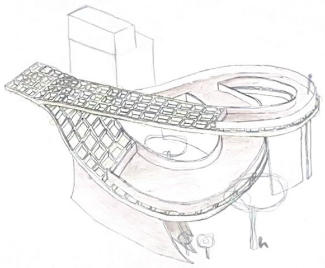

I chose the Site 3 because it was more capable to be a public space area and it was more capable to make a space for beans to grow and live

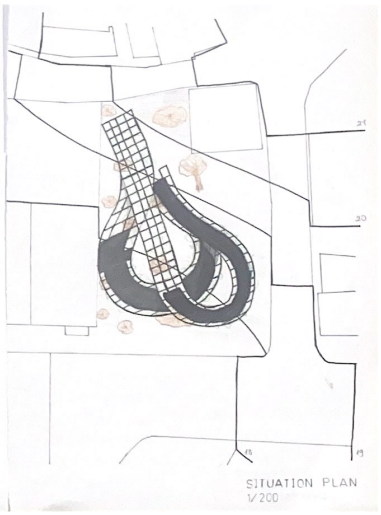

FINAL VERSION OF THE DESIGN

KITCHEN DESIGN SKETCHES AND IDEAS →

Hide everything but don't hide anything.

To hide the kitchen in a public space I made some designs by shaping the structure.

The kitchen area is not hidden too much but also not obvious too.
